BETTCHER-NEHER

One of the prettiest weddings of the season took place at the German Baptist Church, Carbon on Aug. 9th, when Rev. E. P. Wahl united in marriage Ella, eldest daughter of Mr. and Mrs. J. J. Neher, and Ernest eldest son of Mr. and Mrs. M. Bettcher.

The bride looked charming in a gown of ivory crepe de chene with sequin trimming with customary veil and orange blossoms and carried a bouquet of pink and white carnations, roses and maiden hair fern. The bridesmaid was Miss M. Neher, sister of the bride, dressed in Coral Georgette and carried a wreath of coral Gladiolas, while two neices of the bride little Esther Ohlhauser and Ida Neher were sweet flower girls dressed alike in pink crepe de chene and carrying baskets of pink sweet peas. August Gieck was best man. After the ceremony the numerous guests went to the bride's home where a sumptuous supper was served, after which the evening was spent in music and games. The young couple will make their home at the groom's farm at Trochu.

DEPARTMENTAL EXAM RESULTS

GRADE XI—Number of units written 32; number passed 28; percentage 87.5.

Complete standing: James Bishop, Hugh MacDonald.
Passed in five and more units: Wm. Edwards, Daphne Nash, Annabelle Ramsay.

GRADE X—No. of units written 45; no. passed 31; percentage 68.8. Passed in 5 and more units: R. Appleyard, Jennie Braden, Gordon Ramsay.

Passed in 4 and under: Edith Braisher, Monica Hodgson, Caroline Wright.

GRADE IX—No. of units written 89; no. passed 60, percentage 67.4. Passed in 5 and more units: Molly Laing, Nelson McClure, Irene Nash, Wilfred Poxon, Mabel Ramsay, Ruth Ramsay, Leola Wallace. Passed in four units: Tom Johnson, Alice Kaiser, Cyril Poxon. Passed in 3 units and under: Margaret Fox, Darrel Kincaid.

Total percentage passed in High School 74.5.

Granary Lumber

If you require any granaries or grain bins to care for your crop, then let us know right away what you need, otherwise you may not be able to get it later on.

Our granary stock is now complete for any style of granary or bin. We have two more granary stock car loads coming in. This will all go with a rush at harvest and threshing time.

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

Why is Red Rose Tea so fresh and flavory? The answer is that it is a blend of the choicest, juiciest leaves, picked when only ten days old—and sold by your grocer in clean, bright aluminum. No tea can be expected to retain its richness and strength unless packed in this modern metal container—the only package worthy of Red Rose quality.

DRESSMAKING SCHOOL
A practical training in designing and making costumes and millinery; individual instruction. The Winnipeg Dressmaking and Millinery School, 78 Donald St., Winnipeg. Established 1900.

WORLD HAPPENINGS BRIEFLY TOLD

Henry J. Wright, K.C., 66, prominent Toronto barrister, is dead.

The London Sketch says that Oscar Slater, whose conviction of murder was recently set aside after he had been imprisoned for years, has accepted the government's offer of £6,000 (\$30,000) as compensation for his wrongful conviction.

Rev. Father James Huntin, former rector of St. Michael's, London, Ont., and St. Joseph's, Brantford, was killed when he wandered on the C.N.R. tracks near his home. He retired a few years ago and was in poor health.

One of the best known railway conductors in the west and for the last three years vice chairman of the Western Region, C.N.R., Order of Railway Conductors, Harry Sells Osterlander, 42, is dead at his home in Brandon.

Practical certainty that Charles Evans Hughes, of the United States, will be elected at the September meeting of the League of Nations, a member of the Permanent Court of International Justice at The Hague came recently, when Italy and Poland joined the 26 nations who previously had nominated him for the place.

The first appointment of its kind to be made in Canada is that recently made by which Miss Lillian Hollingshead, a graduate of the University of Saskatchewan, will become a member of the staff of the Dominion rust laboratory in Winnipeg, her duties to begin next Spring. Miss Hollingshead is now at the University of California.

DIARRHŒA Was So Bad Child Passed Blood

Mrs. Harry Nesbitt, R. R. No. 2, Shannon, N.B., writes: "Last Fall my little boy took very bad with diarrhoea and before I knew it he was passing blood. I went to our medicine case and gave him a dose of

and a little later gave him another, and half an hour after the second dose he got relief and by the time he had taken six doses he was like a different child."

This wonderful bowel complaint remedy has been on the market for over 30 years; put up only by The T. Millburn Co., Limited, Toronto, Ont.

Farmers' Marketing Tour

Canadian National Railways' Tour
To Great Britain and
Denmark, 1928

(Continued.)

Having seen Impington Hall, once the home of Samuel Pepys, a three hours' run took us to Nottingham. En route were Huntingdon, the birthplace of Oliver Cromwell, Peterborough with its cathedral founded in 1118—here Catherine of Aragon was buried, and for some time the body of Mary, Queen of Scots, lay; Stamford, sacked by the Lancastrians in 1461; Oakham, where every traveller was required at one time to leave a horseshoe at the Castle, the earliest of the present collection being contributed by Queen Elizabeth; and Melton Mowbray, famous for its pork pies, Stilton cheese and fox hunting.

Our stay in Nottingham was for the night only. By 8.30 a.m. we were on our way to Newcastle, passing through Olleron on the border of Sherwood Forest, of Robin Hood fame; Doncaster, of the races and hatters; Selby, with its Abbey built by William the Conqueror; York; Darlington, the birthplace of the modern railway; and Durham whose cathedral, one of the most dominantly situated in England, is acknowledged the grandest Norman cathedral in the country.

Lunch at York gave us opportunity to visit York Minster and to view the city walls. History is not merely evidenced but felt in York. Here died the Roman emperor Severus in the year 211. Here the son of Constantine the Great was proclaimed Emperor of Rome in 306. From their base in York the Romans conducted more than one campaign. In Saxon times York was a torchlight of Christianity. Last year York celebrated the 1300th anniversary of the founding of York Minster.

Amazement filled our minds as we entered this glorious building, lofty and more magnificently spacious than any cathedral we had seen from floor to roof 99 feet sheer; 102 feet in the choir. The east window, the second largest in the world, is 75 feet by 32 feet. The stained glass is the most perfect and extensive in Britain. The Chapter House is the most beautiful in England. It is believed that the pagan temple of Diana stood on the site of York Minster. Here the Saxon King Edwin embraced Christianity and in the crypt we saw the well from which he was baptized! How wonderful then that we should find within this venerable Minster the names of Canadian women! We found them on the oak panels below the "Five Sisters Window" which was recently restored, and unveiled by the Duchess of York to the memory of 1458 British women killed in the Great War. The Canadian names numbered 42.

One could not leave Yorkshire without a tribute to the excellence of its farming, the neatness and thriftiness that characterize this county of "broad acres." In this respect Yorkshire farming excelled anything we had seen.

Nowhere was it better seen than at the home of Mr. J. N. Strickland, Baines, Catterick, one of the most outstanding breeders of dual-purpose Shorthorns in England today. By his courtesy some thirty of our party were enabled to see his herd and enjoy the hospitality of his home. As we rode on north we passed through the historic ground where the Shorthorn breed had its beginnings, and it was interesting to see over Mr. Strickland's mantel the picture of one of his ancestors who sold cattle to Amos Cruickshank.

As we passed through Darlington, we stopped in the famous old market place, the scene of historic contests and animated discussions on the relative merits of the cattle of various old-time founders of the Shorthorn breed.

Newcastle, like Nottingham, was reached in the evening and left early in the morning, so we had not time to view this busy city. Suffice it to say that we were impressed by its activity and the signs on every hand of its industrial and maritime importance.

The journey towards the Scottish border was through beautiful and increasingly hilly country, becoming wilder and more magnificent as we approached the Cheviots. Then a stretch of wire running to the top of a sugar loaf hill and a board marked "SCOTLAND" told us that we had reached the Border. Cheers broke out as each car-a-banc crossed it—our salute to "Caledonia, stern and wild." Soon, however, the sterner beauties of the Cheviots gave place to a kinder prospect. Hard to believe that we were passing through the battlefield of Chevy Chase where the forces of Hotspur fought the troops of Douglas by moonlight 540 years ago.

We lunched at Melrose which boasts in Melrose Abbey, the finest ruin in Scotland, founded by the Clisterians in 1150, but destroyed, rebuilt and extended at various times. The ruins are principally those of the 14th century. Near the High Altar, the heart of King Robert the Bruce, is said to have been buried.

We had now a solemn duty to perform, a sad tribute to pay. We had been shocked while in Denmark, to learn of the sudden death of Earl Haig. The funeral had taken place before our return to England, but

Would Remit Customs Duty

Grade Ewes and Pure Bred Rambouillet Rams From U.S. To Enter Free For Certain Period

An order-in-council has been passed providing for the remission of customs duty on grade ewes and purebred unregistered Rambouillet rams imported from the United States during the period commencing September 1st and ending November 30th. These sheep are imported for breeding purposes, and must conform to all regulations as to health and be subject to all quarantine orders. The supply of these classes of sheep in Canada is not sufficient to meet the demand, and a large quantity is available in the United States for export. Similar action has been taken during the past few years on recommendation of the Minister of Agriculture.

It would seem to be a poor newspaper article when you cannot make head or tail of it.

Coals To Newcastle

Modern Counterpart Of Old Adage In Shipment Of Wheat To Russia

The old adage about shipping coals to Newcastle has a modern counterpart in the shipment of about \$5,000,000 worth of Canadian wheat to Russia, which went forward from Montreal recently.

Before the war, Canada's greatest competitor in the wheat markets of the world was Russia, but conditions have so changed that not only is Canada now the world's greatest wheat exporter, but she is actually shipping wheat to Russia. The shipments are said to be necessary to meet a threatened food shortage in Russia.

The writer's train of thought is a construction train.

When a man is generous to a fault it is usually to one of his own faults.

SUNDAY SCHOOL LESSON

AUGUST 19

PAUL CARRIES THE GOSPEL INTO EUROPE

Golden Text: "Come over into Macedonia, and help us."—Acts 16:9.
Lesson: Acts 15:36; 16:15.
Devotional Reading: Isaiah 60:1-6.

Explanations and Comments

The Macedonian Call, verses 9, 10. Paul was at Troas, the gateway to Europe. As he walked the streets he saw a motley crowd, among them many Europeans. As he stood in the harbor and gazed out at the distant islands fringing the coast of Macedonia, he must have longed to go over and possess that part of the world for Christ. It was a natural vision which appeared to Paul that night, of a man of Macedonia standing before him and begging him to "Come over into Macedonia and help us."

"There was that mighty power which has been called 'the urge of God' acting upon a soul ready to obey the divine behest to the uttermost."

"How came the vision to take this shape—a man standing beseeching him? Perhaps because an active imagination tends always to personify human need. Phillips Brooks once confided to a friend that sometimes, as he preached in Trinity Church, the multitude of faces in the congregation, expressing their multitudinous hunger and yearning, would suddenly melt into a composite face, all the people becoming for the moment a single person whose vast need moved the preacher profoundly, and to whom he poured out his secret soul in impassioned utterance. It may have been thus with Paul and the Macedonians. His eager yearning to help would not permit him to think of them impersonally as a collection of individuals, but only as a composite personality whose need was so acute that a way must be found to help them. I think the success of the missionary enterprise always will depend upon the power of Christians to visualize and personalize the need of non-Christians in this way."—James A. Beebe.

"I am confident that when the Almighty wants me to do, or not to do, a particular thing, he finds a way of letting me know."—Lincoln.

God was bidding him preach in Macedonia, Paul believed, and "straightway" he made his plans to obey his orders.

Very few old men, W. Robertson Nicoll thinks, look back with regret upon the decisions that they made at the crises of their careers, and the reason is, he says, that we are not left so much to our own wisdom as we think. All unconsciously to ourselves we have been guided.

Knew His Subjects

Two colored men came to the outside of a crowd where a politician was making a speech. "Who am dat man, Sam?" asked one. "Ah doan' know what his name is," Sam replied, "but he sure do recommen' hisself mos' highly."—Vancouver Province.

Radium is the most costly metal in the world.

Lasting!

It takes skill to build things to endure. Anyone can build a battery—but only Eveready can make a Hot-Shot!

30 years of experience have taught Eveready how to put the longest life into batteries for farm ignition. From the current-making materials to the waterproof steel case, every feature of these famous power plants is rigidly tested by highly trained chemists, engineers and battery builders.

Each battery bearing the name Eveready bears a full guarantee of satisfaction. Remember, if it's not an Eveready, it's not a Hot-Shot.

Eveready Igniters are the longest lived single Dry Cells made. For use in unexposed places.

CARBON BASEBALLERS WIN FROM ROCKYFORD

The Carbon Junior Baseball team journeyed to Rockyford on Wednesday to play the Rockyford Juniors and were successful in their game by winning 4-1.

The following were the line ups:

Rockyford		Carbon
McNeil	c.	MacDonald
Barr	p.	McClure
Heyden	1b.	Ramsay
Sangster	2b.	Moffat
Gale	3b.	Bingham
Eldon	s.s.	Freeman
Longbottom	lf.	Poxon
Gibson	c.f.	Edwards
Bannister	r.f.	Doerkson

Carbon has played at Three Hills, Drumheller, Acme, and Rockyford this year and as yet Three Hills, Drumheller and Rockyford have return games to play here. The Carbon boys are awaiting these games with enthusiasm and only hope that the other towns will play the game and come here before the season is over.

(108)

Lumber companies report the greatest volume of business in Alberta since the boom year of 1912. One hundred million feet of lumber is being cut in Alberta this year but the bulk of the supplies come from British Columbia mills.

A press report from Telfordville states that the farmers are well pleased with the allocation of stations on the twenty mile extension to the Headley subdivision of the Canadian Pacific Railway. A large number of settlers are going into the territory which will be served by this extension and the old timers in the district are now clearing and breaking as much land as possible.

Kyohel Kato, who represents a Tokio concern, and who has just concluded a business mission to Canada, stated that he had bought 8,000,000 bushels of wheat in Canada, or about half of Japan's total importations. He explained that Japan got more for its rice than Canadian wheat cost in their market, hence the present purchase. He said, too, that Japanese were eating more wheat foods and adapting themselves to the stronger diet.

"The Maritime Provinces in particular, and Canada in general, need more commercial advertising," was the opinion expressed by Hon. J. B. M. Baxter, Prime Minister of New Brunswick, when interviewed on arrival on board the "Empress of Scotland" after a month's visit to Europe. British settlers in the Maritimes have been quite satisfactory as regards type and quality, he said, and he hoped that we will be able to obtain a great many more spread over a period of years.

Part of a litter of eight red foxes, which, together with the vixen, were captured in the Arcola district recently, have been brought to Moose Jaw by Mr. W. White, who has established a fox farm east of this city. It is many years since red fox have lived at large in their natural state in the southern part of this province, where these were captured. Mr. White intends to start raising patch foxes, a cross between red and silver or black fox, as a commercial enterprise.

Wool growing in Western Canada is increasing rapidly, according to W. W. Thomson, manager of the western branch of the Canadian Co-operative Wool Growers Limited. Up to June 30th, he pointed out, four carloads of wool had left Regina for Weston, Ontario, (for grading by Government authorities) as compared with one for the similar half year of 1927. This year's shipments represent 108,000 lbs. from 300 flocks in the provinces.

The mystic number "13" holds no terrors to the Royal Order of Jes-ters, an organization within the Ismailia Temple Shrine of Buffalo, who sailed on Friday the Thirteenth of July, with thirteen members in their party, from Montreal for Liverpool. The society meets on the thirteenth of each month at 6.13 in the afternoon, and is divided into courts of 13 members each. The party of Jes-ters sailed on the crack new Canadian Pacific liner "Duchess of Bedford" in a group of business visiting the old world.

READ THE ADVERTISEMENTS

Mountain Resort Acquires New Charms

1.—Alone in its world is the Banff Springs Hotel. 2.—An interior view of the new swimming pool built in the hotel.

Acknowledged by the most discriminating as the finest resort hotel on the American continent the Banff Springs Hotel, opened by the Canadian Pacific Railway Company on May 15, inaugurates a new era for visitors to the Rocky Mountains. This internationally famous center has been in process of rebuilding during the past two winter seasons and now stands complete, magnificent as to construction and furnishings and beyond compare as to beauty of surroundings.

The Banff Springs Hotel is so constructed as to blend, in the beauty of its architecture, with the snow capped peaks of the mountain ranges. Built of native stone quarried from the base of Mount

Rundle and trimmed with Tyndal stone from Manitoba the building itself, complies with all the tenets of dignity and good taste.

The Banff Springs provides accommodation for 1100 guests, and contains 600 bedrooms with baths in addition to a large number of suites of marked beauty and comfort. The layout of the public rooms and lounges has been carefully thought out, and these rooms are especially appealing in point of design and richness of furnishings. The main lounges are things of beauty in themselves and the view, down the valley of the Bow

River, is alone worth a trip to Banff.

The building of this great hotel or rather the rebuilding, has been going forward for several years, but the construction work has not interfered with the comfort of the summer guests. The work has been carried on during the winter months. Enormous wooden shells were erected and heated throughout with steam, and the work done with the same ease as if at the height of summer. It is interesting to note in this connection that this system of construction involved a monthly consumption of coal of more than 700 tons.

Canada To The Fore

The breaking of records by Canada is becoming a commonplace. It is indeed an off year when, in some branch of human activity and endeavor, this young Dominion does not attract world attention to itself by some new and startling achievement.

Prior to the war, Canada was hardly known, even as a name, to the vast majority of the peoples of Europe, and those who recognized the name had but slight knowledge of the country. To most of the world, Canada was one of the colonies which Britain had scattered here and there over the face of the globe, but which was of little value and of still less importance in world affairs.

In the war Canada made a name for itself, and other nations were suddenly made to realize that there had arisen in the western hemisphere a nation which already was helping to write history in large and impressive characters and was destined to have a profound effect upon international relations, political and economic. Canada's war effort served, perhaps as nothing of a less spectacular nature could have done, to turn the attention of the people of the United States northward, and awaken them to the fact that the whole of North America was not to be found within the confines of the republic; that, on the contrary, a second American power was rapidly developing at their very doors.

Since the war the reality of this fact has year by year been emphasized. Long the world's greatest exporter of wheat, the United States has seen Canada pass it and secure that title by a wide margin. Within the past year or two, the United States has been forced to also relinquish to Canada the distinction of being the world's largest manufacturer of paper. Steadily, year by year, Canada has been passing other countries in the production of gold and is now within measurable distance of overtaking the United States and assuming second place to South Africa.

Contributing a volume of only minor importance to the total trade and commerce of the world a bare generation ago, Canada is now one of the world's greatest traders, a factor to be reckoned with in all the markets of the world. Before the war, dependent upon the money markets of Great Britain and the United States to finance its many undertakings, Canadians today are able not only to finance their own country, but to an ever increasing extent are financing huge undertakings in other countries, while at the same time rapidly buying back into full Canadian control many large corporations of this country which in years of our financial immaturity were financed and controlled by British and United States capitalists.

The war, and Canada's significant participation therein, also had the effect of raising the international status of the Dominion, giving it not only a status of equality with Great Britain within the Empire, but the rank of a nation in the council of nations. The refusal of the United States to join the League of Nations undoubtedly had the effect of the more directly focusing attention upon the North American nation which did join, and placing Canada in the forefront in the League membership.

And since destiny thus called upon Canada to play its part in the International arena, this Dominion assumed the responsibility with dignity and real effectiveness. Its place around the council board at Geneva has been no minor nor insignificant one. Rather, Canada has wielded an influence possibly out of proportion to its present population, but in keeping with the growing importance which other nations now attach to this Dominion.

Having thus moved out into the great international arena, Canada this year decided to be worthily represented at the Olympiad, the great meeting place of the athletes of the world. Despite its small and widely scattered population, this young Dominion dared to try conclusions with the much more numerous representatives of other countries in the field of sport and athletic skill and endurance. And again Canada surprised the world. The sons and daughters of the Dominion carried the flag of Canada to victory time and time again, winning many of the premier events. A Canadian school boy, Percy Williams, of Vancouver, achieved the double victory of winning the 100 metres and the 200 metres race, regarded as classics of the great meet. Ethel Catherwood, a Saskatchewan girl, won the high jump and in doing so established a new world's record. A quartette of Toronto girls also broke the world's record in winning the 400 metres relay race. Considering the number of events in which the Canadians participated, no other country in the world approached their record.

Larkes: "But think of the old days, the galley slaves, for instance."
Sparkes: "Well, all they had to do was row a boat and they had plenty of help, too."

National Radio Chain

Broadcasting Companies To Improve Quality Of Radio Programs

A national chain broadcast organization, divided into two sections, will commence operation about September 1, it was announced in Toronto, by R. W. Ashcroft, who has been appointed manager of the newly formed Trans-Canada Broadcast Company.

Mr. Ashcroft said the organization of the company was the outcome of a suggestion by P. J. A. Cardin, minister of marine and fisheries, that an effort be made by Canadian broadcasting companies to improve the quality of domestic radio programs.

Key stations of the new organization will be located in Winnipeg and Toronto.

Stations in Montreal, Ottawa, Kingston, Hamilton, London and Quebec, will be linked up with the eastern section and stations in Saskatoon, Regina, Edmonton, Lethbridge and Vancouver with the western section.

Charity covers a multitude of sins that should be allowed to remain uncovered.

Frown On Reckless Flying

Ban Placed On U.S. Army Airmen Doing Daredevil Stunts At Exhibitions

A ban was placed today on United States army aviators participating in exhibitions of dare devil stunts, such as wing walking and performances of a similar nature.

"This does not, of course, apply to legitimate flying acrobatics at proper altitudes," explained Army Air Secretary Davison, "but merely to exhibitions such as trapeze work, wing walking, changing from one plane to another in the air, transferring from automobile to airplane and stunts of that character."

GIRLS AND WOMEN NEED RICH BLOOD

This Lady Found Dr. Williams' Pink Pills a Friend Indeed

Just because she is a woman there are times when every woman needs help and strength in the form of a blood-building tonic.

To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing because they enrich the blood, give strength and restore tone to the aching nerves. The anaemic girl who is languid and pale; the wife whose back feels like breaking; the matron whose health fails as she reaches middle age—for all such sufferers Dr. Williams' Pink Pills are invaluable because ill-health in girls and women is usually caused by poor blood or insufficient blood. These pills have proved a blessing to thousands of others, why not you? At various stages of life Mrs. G. R. Lake, Walton, N.S., has proved the value of Dr. Williams' Pink Pills. She says:—"I first used these pills when a young girl, for it is during the 'teen age' when nature calls upon every bit of the reserve strength we have, that we need their rejuvenating help. It was then I found Dr. Williams' Pink Pills a friend indeed. And again, now that the girlhood stage is past and I am a mother of four children, subject to all the cares and worries of the home, Dr. Williams' Pink Pills is the only tonic I take to keep up my health and strength, and they have never failed. Should any ailing girl or weary mother, due to my advice try these pills, I know they will find them as equally good as I have done."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Saskatchewan Wheat Pool

The Saskatchewan Wheat Pool report an increase in acreage signed up for the new five year contract period, 1928-1933. They report 85 per cent. of the old contract holders signed to date, also a large number of new contracts.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

Secure Grazing Lease

A lease for grazing purposes of 51,807 acres of land northwest of the South Saskatchewan river, has been granted the Home Ranch Company, Ltd., of Bow Island, Alta.

Minard's Liniment for Blistered Feet.

First Maid: Your fiancée stutters quite a bit, doesn't he?

Second Maid: Yes, but it doesn't matter. After we are married he won't have a thing to say, anyway.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

Greyhounds are perhaps the oldest known type of dog. Stone carvings dating back to about 400 B.C. show figures of these graceful animals.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Music produced in Australia was recently heard over the radio by passengers travelling on a railway train in England.

Minard's Liniment—a reliable first aid.

A FRIEND OF THE PRESS

F. E. TRAUTMAN
Press Representative, Canadian Pacific Railway

Newspaper editors and proprietors from the Great Lakes to the Pacific Coast, comprise quite a large fraternity, and to know each and every one individually means, a fairly large acquaintanceship. Mr. F. E. Trautman, C.P.R. Press Representative, will possibly tell you that he has more than a nodding acquaintance with all the old-timers and most of the men who have more recently entered the newspaper field in Western Canada. Quite a few years have passed since Mr. Trautman quit the editorial chair of the Fort William Times-Journal, to enter the service of the Canadian Pacific Railway in his present capacity. During the intervening time he has cultivated and held the friendship of the newspaper men throughout Western Canada in particular and Eastern Canada as well. Mr. Trautman's outstanding characteristic is his geniality, and the whole-souled interest he has taken in the welfare of the press is proverbial.

He has been ever present at annual gatherings of the Manitoba, Saskatchewan, and Alberta weekly newspaper associations, and has contributed in his own way, and in a large measure to the success of these conventions.

The value of the production of the fisheries of Canada for the year 1927, was \$49,460,600.

It's more than a problem in geometry to square the eternal triangle.

CHAPTER XXX.—Continued

Only desperate men would ever have dreamed of such a plan as theirs. The camp was fenced with eight strands of barbed wire, and every sixth fence-post carried an arc light. But with the aid of a file which one of the men possessed, they would cut the two lower strands, at dusk, just before the lamps were lighted, and crawl through. At the last moment the other two men grew panicky.

"It is sure death," said one; "they'll catch us. I can see how they are watching us. I'd go, and take a chance only I have a wife and kid—I've got to think of them."

The other man declared the plan a foolish one on account of the weather. "January in Germany is too much like the corner of Portage and Main," he said.

A new batch of prisoners had come in that day, and one of them, who was standing near enough to hear, came to Jack and asked if he might go. He was a grizzled man of about thirty-five.

"I have no one depending on me," he said, "and I have already tried twice."

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Fletcher's CASTORIA

W. N. U. 1746

"Come along, sure," said Jack, "three times and out."

"Thank you so much," said the man heartily.

Jack was startled by his politeness. A prison camp does not always foster the social amenities.

"Your name is Doran, is it not?" asked his new friend.

"Mine is English—at least that is my nickname. We are both from Canada. . . . We might as well try it as die here . . . there is always a chance."

While the prisoners were taking their exercise just at nightfall walking up and down the enclosure listlessly, aimlessly, Jack lay beside the fence filing away the two lower strands of wire. This done he crawled through, English following. The prisoners, who were all in the secret, kept a sufficient number directly in front of them to hide them from the camp.

Out into the bog went the two desperate men, fighting for what we hold so lightly because we have never lost it. Their enemies were cold and hunger and the pitiless rains which seemed to fall every day. They journeyed only by night. Jack found his new friend's knowledge of the country to be remarkable. He seemed to know every village, and he spoke German as well as a native. In this way they were able to travel after dark on the roads, and once they got a lift from a kind-hearted waggoner, with whom English carried on a long conversation, eliciting the information that everyone was tired of the war, but it was considered the wisest course to give the English a proper beating and teach them not to start another. He asked them to come in to his house for supper, but they were afraid to do that, their Red Cross clothes would betray them. The kind-hearted man gave them some sticks of liquorice from a bag he was taking home to his children.

"This man is the true German," said English that night as they continued their journey, "genial, simple, hard-working. The Germany that I knew when I lived here was a land of music, fairy tales, and a certain child-like simplicity. There was an inherent desire to make things beautiful, to turn desert places into gardens. But I was always afraid of the Prussians and their cast-iron methods. That, combined with the simplicity of the Germans, has made the war possible."

The fugitives had need of all the advantages English's knowledge of the country and language gave them, for the season of the year was unfavorable. The leaves were gone from the trees, making shelter difficult, there were no vegetables in the gardens, no cows in the field to furnish hungry travellers with a handy meal and they could not be sure of finding a spruce thicket or a wood of Scotch fir just when daylight was coming, but there was one advantage in winter travel—the nights were longer.

A hundred times Jack blessed the happy chance which brought English to camp that day. His knowledge of wood-lore was wonderful—he seemed to carry everything that was needed—a sort of Robinson Senior from "Swiss Family Robinson." He made a fire each morning in the gray dawn to dry their clothes, explaining to Jack that a fire was almost invisible then. In daylight the smoke shows, at night the flame, but in the steady blue dawn a fire can be enjoyed in comparative safety.

In two weeks they reached the river which would determine their fate. Beyond it lay Holland and safety.

The first night they stayed in the woods on the bank, trying to think out a plan. The river was in flood, so swimming was out of the question. Uprooted trees floated in its current. Vainly they hoped for a boat or a raft. The magical happenings which come to travellers in books did not come to them—not a boat, not a raft, not even a rope.

From their cover in the trees Jack and his companion could hear the sounds from the other side of the river, the ringing of bells, the shunting of cars. There seemed to be only one way, and that was to attempt the bridge. It probably would be guarded heavily, but English's knowledge of German might help. It looked to be the only chance.

All day they waited for the night to come. They had two good German smocks, stolen from a clothes-line, and Jack had a warm pair of stockings. To get these English had gone boldly into a garden as they came through a village. He had a way of quieting the dogs by a peculiar whistle and this gave him a distinct advantage. The dogs who came out barking fiercely, changed their attitude when he spoke to them, and even showed a disposition to follow him.

"If the dogs could bring us food we would have plenty," he said that day, as they sat in the spruce thicket. "The chances are against us, Jack, but one of us may get over."

"One of us!" exclaimed Jack. "I must be both or none!"

"No!" said the other, "it does not matter much about me. No one cares so very much, and it happens that the one person who cares a little bit about me, cares very much about you."

Jack looked at his companion—dishevelled, dirty, long-haired and long-whiskered, his eyes bloodshot—and wondered if his mind were going. "And who is that?" he asked gently, as if he would humor his poor friend's mood.

"Your wife, Helmi."

"Helmi!" Jack repeated. "My Helmi!"

"Yes, yours—she is the only woman except my mother who ever cared whether I lived or died."

Then he told Jack of his quarrel with Larsen in Eagle Mines, and of Helmi's kindness, and of the week he had stayed in her house.

"She asked me to pray for you, Jack," he concluded, "and I kissed her golden hair. She told me she was sure you would go to the war, and asked me if I met you would I be your friend. That is why I came—it seemed as if I must come—when I found you at Vehemoor."

Jack's voice trembled as he spoke. "Then you are Arthur Warner, and I have been doing you wrong in my thoughts. No one told me you were hurt—they only gave me half the story. When I got back I found Helmi gone—gone without a word. She had been gone a week—I was a month late—but she might have waited."

The trees were throwing long, cold shadows over the sweeping current of the river.

"Did you not know there was a good reason for her going?" Arthur asked, after a pause.

"I knew nothing," said Jack. "What reason could there be?"

"She went to the city to a hospital to give birth to your child."

Jack's face grew white with pain. "How do you know?" he whispered.

"She told me. I wanted her to come to England and train as a nurse, and when I urged her, she showed me a little dress she had been making, and told me, and she told me she was glad. Her only sorrow was that you were away and the adventure you were on was dangerous."

"I did not know," Jack groaned.

There was silence then, when neither man could speak.

(To Be Continued.)

come to England and train as a nurse, and when I urged her, she showed me a little dress she had been making, and told me, and she told me she was glad. Her only sorrow was that you were away and the adventure you were on was dangerous."

"I did not know," Jack groaned.

There was silence then, when neither man could speak.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THE SIX YEAR MOLAR

You have heard your dentist call this first double tooth "the six year molar."

Why is this? You have perhaps guessed it that it is because it erupts usually at about the sixth year.

Now, you have been observant enough to note that it is a first tooth in the sense that no tooth was lost to make room for it.

And coming in at this early age, you may have thought it a "baby tooth" which would, in due time, be shed.

So, in your child, you have perhaps neglected to give it the care that it deserved—with disastrous results.

Without doubt, this neglect is the most common of dental sins committed by parents, and perhaps with gravest consequences to their children.

Because, should this tooth become so badly decayed within from four to six years following its eruption as to infect the "pulp," your dentist as a rule, has no recourse but the use of the forceps—and, losing the tooth, the whole series is deranged, since, in a real sense, this six year molar is the key tooth of the dental arch.

However, Nature is gracious, for sometimes you will find that where this tooth has been lost at an early age, the second molar has "drifted" forward to fill the space, with the third molar advancing in turn as it erupts. But this is only rarely the case—better a little care at the proper time to prevent this trouble rather than to rely on Nature for a cure.

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house, for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Granted Temporary Parole

Two Negroes Sentenced To Death May Escape Penalty

Governor Graves, of Birmingham, Ala., granted a temporary parole of 60 days to two negroes convicted of murdering a negro who later returned to her home after several months' absence on a visit to relatives. The two men were charged with chopping the woman's body in pieces and throwing them into the Alabama River. The parole was granted pending an official investigation.

Let Minard's Liniment Relieve Pain.

An auto bus company in Europe is compelling each passenger to buy in addition to the regular ticket, a special slip covering his share of the gasoline tax.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

According to a recent announcement, Tokio, Japan, has nearly 6,000 confectionaries and bakeries, and only about 1,000 meat markets.

Minard's Liniment—the Universal Remedy.

DON'T suffer headaches, or any of those pains a tablet of Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for Bayer. And don't take any but the tablets that are stamped with the "Bayer Cross."

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

Little Helps For This Week

"And now men see not the bright light which is in the clouds; but the wind passeth, and cleanseth them." Job XXXVII. 21.

His purposes will ripen fast, Unfolding every hour; The bud may have a bitter taste, But sweet will be the flower.

Blind unbelief is sure to err, And scan His work in vain; God is His own interpreter, And He will make it plain.

—William Cowper.

There is nothing in what has befallen or befalls you which justifies impatience or peevishness. God is inscrutable, but not wrong. Remember if the cloud is over you that there is a bright light always on the other side; also, that the time is coming, either in this world or the next, when that cloud will be swept away, and the fulness of God's light and wisdom poured around you. If your life is dark, then walk by faith; and God is pledged to keep you as safe as if you could understand everything. —Horace Bushnell.

The Many-Purpose Oil. Both in the house and stable, there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this time old remedy which has made thousands of firm friends during the past fifty years.

Homes For French Poor

Paris is preparing to turn land-lord on a large scale. Construction of modern apartments, on the site of one-time fortifications, is now under way. Officials estimate that 10,000 Parisian families will be housed in the new buildings at a cost of about \$160 a year, for four rooms and bath.

HELPED DURING MIDDLE AGE

Woman Praises Lydia E. Pinkham's Vegetable Compound

Sarnia, Ont. "I am willing to answer letters from other women, to tell them the wonderful good Lydia E. Pinkham's Vegetable Compound did me. I cannot be thankful enough for the benefits I received during the Change of Life. I do housework and my troubles made me unfit to work. A friend advised me to try the Vegetable Compound. I felt great relief at once, began to regain my appetite, and my nerves got better. I will recommend your medicine to all with troubles like I had." —Mrs. JOHN BENSON, 162 N. Christina St., Sarnia, Ontario.

Sample Each Free by Mail. Address Canadian Agents: "Hobart, Ltd. Montreal." Price: Soap 25c. Ointment 25c and 50c. Tablets 25c. Cuticura Shaving Stick 25c.

Oh, dad and son are swapping styles and Age with Youth flickers. No more does pa provoke our smiles when he goes forth in knickers. They make him think he's young, perchance, and very much in season. A man's no older than he pants, must be his line of reason.

And sonny now must wear them long and keep 'em pressed in creases and he must think the world's all wrong and boyhood shot to pieces. The marble game is robbed of glee, this school yard sport is lagging. He dares not squat upon a knee; he'd start his trousers bagging.

Oh, where will all these changes cease since man to folly panders? And what is sauce to human geese is apple sauce to ganders. Since chickens will come home to roost like bread upon the waters, this fad may soon be introduced to mother and her daughters.

The little girl of four, let's say—Clarissa, Elsie or Sadie—will dress like mother does today and be a little lady. She'll wear a seal skin coat perhaps, and hose like mothers—thinner at night, of course, she'll wear her wraps and formal gowns for dinner.

With baby ribbons in her locks, her shell pink ears disclosing, we'll see her ma in half length socks, her shin and knees exposing. And aping father's youthful dress we'll see the youngsters' mamas go forth in rompers, too, we guess—ain't that the cat's pajamas?

READ THE ADVERTISEMENTS

Fort William, Ontario. — Three grain elevator corporations with large interests at the Head of the Lakes are involved in a merger of several powerful Canadian terminal and line elevator companies, the new company being known as the Canadian Consolidated Grain Company. A total of 12,000,000 bushels of elevator capacity will be owned and operated by the new company.

Betty and Buster Bruhn, two little black bear cubs, have sailed from Montreal for Italy where they will be presented to the Marquis de Pinedo, the famous Italian round-the-world flier. They are woolly babies, scarcely larger than a child's toy teddy bear, and of an amiable disposition. They were obtained by Mr. E. Roncarelli of Montreal, through the General Tourist Department of the Canadian Pacific Railway, and are similar to the little bears sent over by him a few years ago to Mussolini.

The Dominion Government is going in for pigeon breeding with the object of training these birds for purposes of communication. The Department of National Defence is to have charge of the work. The Civil Service Commission has announced an open competitive examination for a pigeon-loft manager in connection with the civil Government air operations of the Department of National Defence, to organize and administer a pigeon communication service.

The Canada Goose makes remarkable migratory flights but it is not generally known that civilization has so far effected his habits that sometimes he travels by railway. A pair of wild geese enjoying this modern luxury passed through the Windsor Station, Montreal, under the proverbial wing of the Canadian Pacific Express in a specially constructed crate. There are a number of bird sanctuaries throughout Canada and the United States where pinioned geese are kept to reassure their comrades that all is safe and secure for them to stop and rest on their flights north and south.

An extension to the air express services maintained by the Canadian Pacific Express Company has been announced, and a new air line will be opened early in September between New York, via Albany, and Montreal. Lines are already operating between Rimouski, Montreal, Toronto, and Ottawa.

A name of unusual distinction will be added to the Canadian Pacific's Royal Family of ocean steamships when the fourth 20,000 ton vessel of the new "Duchess" class is launched in Scotland. She will be named the "Duchess of York," and will be christened by Her Royal Highness the Duchess of York herself, the ship's name being recently changed from the "Duchess of Cornwall."

Despite the doubts of nervous tourists, the grizzly bear is more attracted by the sight of a huckleberry bush or a stream full of fish than the prospect of a juicy specimen of humanity, and the splendid crop of huckleberries now in British Columbia will probably contribute to a successful hunting season during the month of September and the early part of October.

Getting into the Home

Trout and Salmon Await Anglers' Flies

FISHING NEAR
LA BELLE,
QUEBEC

UNIPIGON RIVER
BUNGALOW CAMP

TROUT FROM
UNIPIGON RIVER

With winter snows dispersing rapidly and ice dissolving into lakes and streams; with the rising of sap and budding of trees, memories of anglers awaken picturing streams where one would wish to fish, days

"When even the deep blue heavens look glad, And gladness breathes from the blossoming ground."

The waters of Nova Scotia, New Brunswick, Quebec and Ontario have all their devoted followers waiting for the ice to disappear. These anglers are always eager to try new fishing grounds, and they will have new waters this year, according to Wm. Barber Haynes, writing in "Outdoor Life and Recreation." The latest bid for the favor of the sportsman is the opening of part of that famous salmon river, the Restigouche, to any sportsman who can pay a sum for a day's fishing. Heretofore, it has been impossible for anybody to fish the Restigouche unless he rented fishing water for a term of several years. Now the province has made it possible for men in ordinary circumstances to put up money enough for the realization of anglers' dreams—a week's fishing for the salmon of the Restigouche in New Brunswick.

The season for salmon in New Brunswick is from May 24—September 30. In the Restigouche River and its tributaries, such fishing is permissible from April 1 to August 15 only; the limit is 30 per week. The salmon season in Nova Scotia is from February 1 to August 31.

Quebec's trout streams are many and widespread, and are easily reached making them deservedly popular both with Canadian and American fishermen. Satisfying sport is to be had in the streams in the Lake Edward district north of Quebec City. The Province of Quebec has a wealth of attraction for the sportsman. No portion of

REALIZATION OF WINTER DREAMS

the North American continent is more richly endowed with fish and game. The innumerable rivers, streams, lakes and great stretches of forest offer an almost bewildering selection to the man planning a hunting, fishing or canoeing trip. The trout season in Quebec province is from May 1 to September 30 for speckled trout, and from December 2 to October 14 for the lake trout.

Ontario's most celebrated trout country embraces rivers and streams north of Lake Superior whose names many anglers are already familiar with. In this section special bungalow camps are at your service, operated by the Canadian Pacific Railway, they afford every advantage of an outdoor life just slightly lightening the hardships especially for those who wish to have greater comforts than a tent and camp outfit affords. The season here opens May 1. Distant fields are always green, and distant streams appear more green, while pools grow darker as imagination pictures fishing days in spring.

For Economical Transportation

Announcing the NEW UTILITY TRUCK

-another Sensational Chevrolet Value
4 Speeds Forward • 4 Wheel Brakes

Now Chevrolet presents the New Utility Truck—a low-priced haulage unit embodying every feature of advanced engineering developed through years of experience in commercial car-building and proved by exhaustive testing on the General Motors proving ground!

Typical of the progressive design embodied in this sensational new truck are a four-speed forward transmission, powerful non-locking four-wheel brakes, full ball-bearing steering mechanism, front shock absorber springs, air-bound seat cushions and channel front bumper. In addition, it offers all those basic features which have been so largely instrumental in Chevrolet's tremendous success as the world's largest builder of trucks—rugged rear axle with one-piece banjo-type housing . . . semi-elliptic springs set parallel to the load . . . completely enclosed valve-in-head motor with air cleaner, oil filter and positive action vane type oil pump . . . thermostatic control of water circulation . . . low loading height . . . generous road clearance and countless other features of comparable importance.

Visit your Chevrolet dealer and get a trial-load demonstration of this remarkable new truck! It has been developed to meet the modern conditions of business transportation and body types are available for every type of business.

Three Attractive Features

The annual riding and camping expedition of the Trail Riders of the Canadian Rockies has many attractive features, but at the top of the list were undoubtedly the three charming maidens photographed above who took part in a 250 mile ride, joining up with the main group that visited the Lake of the Hanging Glaciers. They are Kitty Miskey, Betty McCullough and Betty Hall, all of Philadelphia.

GREATEST CROP IN HISTORY IS THE PREDICTION

Winnipeg.—Western Canada is on the threshold of its 1928 harvesting season, with present prospects pointing to the production of the greatest crop in the history of the country.

Throughout the prairie provinces most encouraging progress is being made by all grains, and in districts where cutting has started, estimates of wheat yields have ranged from 25 to 40 bushels to the acre.

Recent reports from authorities making their annual field inspections have revealed the crops in varying stages with the most advanced having completed cutting, and in one instance threshed, while in the more backward areas another two weeks of favorable weather will be required to bring the crop to maturity.

The general condition, however, finds the 1928 crop slightly ahead of conditions at this date last year, and binders are expected to be humming over the western grain fields within a few days.

Cutting of barley, rye and oats, has been underway in some sections for the past week, with these crops yielding slightly above the ten-year average.

While no official estimates have yet been made of this year's wheat crop, the consensus of opinion of authorities who have travelled through the western provinces during the past week, is that final figures will show a crop of approximately 150,000,000 bushels.

The feature of the growing crop to date is its freedom from rust damage or other pest infection. Hail has taken a considerable toll, particularly in Saskatchewan, but the increased acreage seeded this spring is expected to offset this loss.

The first harvesters' excursion train is expected to reach Winnipeg from Eastern Canada this week. The railway companies also are moving thousands of grain cars to the various centres of movement.

Yet another indication of preparedness is the arrival of Leslie Boyd, chairman of the Board of Grain Commissioners, to make arrangements for the hearings on grain rates for interior elevators. These rates will be fixed by the board on the strength of the evidence submitted, and made public by Sept. 1.

Pilgrims At Ypres

Impressive Ceremony Is Held In Which 11,000 British Veterans Participated

Ypres, Belgium.—Eleven thousand British veterans of the Great War, including 3,000 women who served in various capacities during those four terrible years, gathered about Menin Gate on Aug. 8th for a solemn ceremony in commemoration of their comrades who fell in the desperately held Ypres salient.

Among them stood the Prince of Wales, Lady Haig, the widow of Britain's victorious commander; Admiral Jellicoe, president of the British Legion, who headed Britain's naval forces in the great struggle, and other commanders who bore a share in the battle of Ypres.

The pilgrims had come, some marching along the familiar roads and others by train, their numbers swelled by thousands who had gathered to witness the ceremony until it was estimated that nearly 20,000 men, women and children joined in singing the opening hymn, "O Valiant Hearts."

The service, in which the huge congregation participated, was beautifully simple and supremely impressive.

Has Rank Of Colonel

Dublin.—Major James Fitzmaurice, member of the crew of the trans-Atlantic plane Bremen, has been promoted to the rank of colonel in the Free State Air Service.

Respect For Flag

Kingston, Ont.—Ontario branch Canadian Legion, in convention here, condemned the use of the Union Jack to drape desks at meetings, etc., and would have it used only as a flag.

New Telephone Service

All-Canadian Phone Service Between Winnipeg and East Is Inaugurated

Winnipeg.—Inaugurating the all-Canadian telephone service between Winnipeg, Toronto and Montreal, via Port Arthur and Fort William, officials of the Bell Telephone Company, the Canadian Pacific Railway and the Manitoba Government, recently spoke to one another across 1,605 miles of copper wire.

The new line between Winnipeg and Montreal is approximately 1,605 miles, and is erected on Canadian Pacific telegraph pole line from Manitoba to Sudbury, via Port Arthur and Fort William; from Sudbury it connects to all eastern points by the Bell Telephone Company's lines. The weight of copper of the new line amounts to 350 tons. There are nine repeater stations to amplify the conversations. This is the third stage in the all-Canadian telephone route the first being Winnipeg to Alberta in 1922, the second Winnipeg to the head of the Lakes in 1924.

The fourth stage is now being completed across the Rockies, the Canadian Pacific right-of-way being largely used, construction now nearing completion for the coast-to-coast telephone service entirely within the Dominion.

Italian Submarine Disaster

Twenty-Seven Of Crew Perish In The Tragedy

Rome.—Poisoned by acid fumes or drowned in the first rush of water, the crew of the Italian submarine F-14, sunk in a collision in the upper Adriatic, died to a man at their posts apparently with fortitude and resignation.

The stricken submarine was raised to the surface after 34 hours of desperate labor by divers who worked hour after hour to attach an air-pipe to the sunken vessel and to fasten steel cables in order that she might be lifted to the surface.

Twenty-seven perished in the tragedy. First reports received by the naval authorities indicated that there were 31 men aboard, but a check of the bodies today revealed that four of the crew had remained ashore for reasons which have not yet been ascertained. Included in the victims were two officers, Captain Well and Commander Fasulo.

Captain Well and Commander Fasulo were both at their posts of command in the conning-tower while the remaining members of the crew were all found dead at their stations. There were no visible signs of panic aboard the boat.

Co-Operative Movement

Wholesale Society Expects To Establish 200 Stores In Saskatchewan

Saskatoon, Sask.—Referring to the recent announcement of the formation of the Saskatchewan Wholesale Society, which is being sponsored by the United Farmers of Canada to sell goods to consumers at as near cost as possible, W. Moss Thrasher, secretary, said that about 200 stores would be established within the first year.

Preference will be given to districts known to be favorable towards co-operative effort. Within the same period he hopes to see between 700 and 800 trading units founded so that the province will be fairly well covered.

A Message To Women

Miss Ishbel Macdonald Does Not Believe In Equality Of Sexes

Toronto.—Miss Ishbel Macdonald, when visiting here with her father, Right Hon. J. Ramsay Macdonald, Labor leader, issued a message to the women of Canada. It read:

"Women are coming into public life not to work against men, but to co-operate with them in improving public affairs. I do not believe in equality. Men and women cannot be compared. Women are just as important as men but they are not equal any more than A and B in the alphabet."

To Identify British Products

London.—"Empire marketing begins at home," inscribed on a Union Jack, is a feature of the national park designed for the furtherance of a government scheme for ensuring the identification of British products.

COMES TO AMERICA

Mrs. Loe Guinness, one of the most beautiful of English aristocrats, is to take up residence in Pittsburgh, Pa., with her husband, who has been placed in charge of his father's business in that city. Before her marriage, a year ago, Mrs. Guinness was Hon. Joan Yarde-Buller, daughter of Lord and Lady Churston.

Dies From Wounds

Stefan Raditch, Croatian Leader, Succumbs To Injuries

Vienna.—Stefan Raditch, Croatian peasant parliamentary leader, died recently at Zagreb, capital of Croatia. The city was grief-stricken and troops are everywhere ready to suppress trouble.

Raditch died of wounds received last June 20, in parliament, when a radical deputy, Punica Ratchitch, infuriated at frequent interruptions, whipped out his pistol and fired six shots into a group of Croatians.

Each shot claimed a victim, two being killed, one of them a nephew of Raditch, and four wounded.

For a time Stefan Raditch's condition improved but he suffered a relapse which finally brought about his death.

Since his assassination Croatia has been in a condition almost of martial law, with troops patrolling its cities' streets to quell possible peasant demonstrations occurring as a result of the episode.

English School Girls Arrive

Will Make Educational Tour Of Canada: From Coast To Coast

Montreal.—Twenty-five English school girls have arrived in Canada to begin a two months' trip arranged under the auspices of the Imperial Daughters of the Empire.

Their itinerary, which takes them to the maritime provinces, to Northern Ontario and Central Canada, the Rockies and the West, has been planned to give the girls a taste of the many phases of Canadian life. The party will return home on October 11.

Long Trek For Pension

St. John, N.B.—"Disabled soldier on way to Ottawa to fight for pension that was taken away," is the inscription on a placard which Joseph McIntosh, a returned soldier, wore across his shoulders as he left the city on a long trek to the federal capital to seek renewal of his pension of \$110.75 a month.

French Plane Crashes

Maurice Drouhin, Noted French Aviator, Is Fatally Injured

Orly, France.—Another attempt to fly from Paris to New York ended in disaster before it had even begun.

The giant tri-motored "Rainbow" crashed on the landing field at Orly aerodrome, killing the mechanic, Lanet, fatally injuring the pilot, Maurice Drouhin, noted French flyer, and injuring two others, Gianoli and Manuel.

The big plane, designed by Rene Cousinet and built entirely of wood, so constructed that all of its essential machinery would be accessible during flight, was a complete wreck, parts of the wings, fuselage and wires being strewn for 1,000 yards along the field.

"The Rainbow" was being put through its final test preparatory to a start across the Atlantic this week when the accident occurred.

It was racing close to the ground at about 125 miles an hour when a few spectators noticed a huge wing wobbling. The engines were cut off then, but the deformation of the wing caused the giant plane to shoot almost perpendicularly into the air to a height of about 450 feet. There it slid to one side, apparently refusing to respond to the controls.

As it reached the ground it tore through a strong wire fence, knocked over iron posts, and crashed against the corner of a hangar, coming to a stop a crumpling wreck on the road bordering the field.

British Harvest Help

Satisfactory Arrangements Completed With The British Government

Ottawa.—Satisfactory arrangements have been completed with the British Government for the movement of harvest help from the British Isles to the wheat fields of Western Canada, according to a statement issued by the department of immigration and colonization.

This movement, which will begin at once, will be under the direction of the British Government, the Canadian National Railways and the Canadian Pacific Railway.

The two railways will be responsible for placing the men in harvest employment on their arrival from the Old Country and the Dominion Government and the Provincial governments will co-operate with the railways in placing these harvesters in winter farm employment in Canada after the rush of the harvest work is over.

Satisfactory arrangements have been made for the return fare of those harvesters for whom winter farm employment cannot be found.

May Defer Old Age Pensions

Toronto, Ont.—Old age pensions may be deferred in Ontario for another year. Indications are that the survey ordered by Premier Ferguson will not be completed for the next session of the legislature, and so the bill may come up on the eve of the next election.

French Airmen Killed

Paris. Captain Labbe and three assistants were killed when their plane crashed at Bourges near the end of a 24-hour flight. The plane was burned. The charred bodies of the men were recovered from the wreckage.

Air Express Inaugurated

Before the propeller stops whirling the Canadian Pacific Express truck is on its way to the city with parcels for delivery. A new air route gives bi-weekly express service in each direction between Toronto, Ottawa, Montreal and the steamship off Rimouski. Two days is gained over regular express schedules, western consignments being transferred to the Vancouver Express at Toronto.

EXTENSION OF PREFERENCE IS EXPECTED SOON

Ottawa.—The Citizen says: "A very important regulation vitally affecting British trade with Canada, is scheduled to go into effect this autumn, but just when this will be for the government to decide."

"As a matter of policy it has been agreed to increase from 25 to 50 per cent. the requirement of Empire labor and materials in British importations in order to entitle them to the British preferential tariff, but before this is operative, customs regulations have to be devised and put into effect."

"As the idea originated with Hon. J. A. Robb, his return from abroad next week is awaited before regulations are considered."

"There have long been complaints about goods, very largely manufactured in foreign countries and then sent to Great Britain for the finishing touches and shipped from there as 'Made in England,' this being eligible for the British preferential tariff."

"The new exaction of fifty per cent. Empire labor and materials will not only rectify this, but will have a large influence on the importing trade in Canada."

Rich Gold Strike

Gold and Platinum Found In Northern Saskatchewan

Edmonton, Alberta.—Said to be incredibly rich in gold and platinum, a "strike" has been made along the north shore of Lake Athabasca, to the east of Black Bay, in the province of Saskatchewan, according to a statement made by Ed. Meyers, Fort Chipewyan trader, who is now in the city.

Jack Hersey, well-known northern man, made the strike, following sporadic search for many years along the north shore of the lake, which has long been rumored to be rich in gold-bearing quartz.

Tests made at the University here disclose that some of the ore carries a content of precious minerals as high as 84 per cent., although this has not yet been confirmed.

According to another northerner, Charlie L'Argent, who makes one of the syndicate which is outfitting to head for the scene of the new find, one of the assays gave average returns of \$45 per ton of some of the quartz shipped south from the scene of the find.

Storm-Swept Florida

Hurricane Creates Havoc Over a Wide Territory

Jacksonville, Fla.—After hammering at communities in the sparsely settled sections of East Central Florida, the tropical storm emerged to sweep Winter Haven and other towns in the rich central citrus country.

City officials at Winter Haven, approximately 50 miles east of Tampa, related that winds of 75 miles an hour velocity had followed earlier gales of 40-mile speed.

Grave fears are felt for the great citrus orchards, laden with fruit, in the immediate path of the storm.

Meanwhile reports trickling in from the country between the new storm front and the Atlantic told of half a dozen towns and communities visited by damage from the storm.

Bombs Thrown By Bandits

St. Paul, Minn.—Blinded by tear gas bombs thrown by bandits the driver and five guards of the Sweeney Detective Bureau armored money car were robbed of \$20,000 in currency here recently.

Buys New Plane

Dessau, Germany.—Charles A. Levine, first trans-Atlantic aeroplane passenger, has purchased a Junkers plane of the Bremen type for 100,000 marks (about \$23,850) for delivery here next week.

Vesuvius In Eruption

Naples, Italy.—The volcano Mount Vesuvius is in eruption, the clouds of smoke and lava being visible for 25 miles. A cordon of troops has been established about the base to keep tourists from the danger zone.
